

Scholarship Program for International Students
The Bachelor of Arts and Science in Integrated Innovation (International program)
School of Integrated Innovation
Chulalongkorn University

The School of Integrated Innovation is pleased to announce the scholarship program for non-Thai students (foreign-passport holders only) in the BAScii Program. There are two categories of scholarships:

1. Merit scholarships

1.1 Full scholarships

Full scholarships are based on students' excellence of academic performance (with first-class honors from high school and achieve BAScii admission top scores of all admitted international students). The scholarships cover tuition fees and a 15,000 THB monthly stipend. To retain full scholarship through 4 years, students must maintain a GPAX of at least 3.5 each semester.

1.2 Partial scholarships

Partial scholarships are based on students' outstanding academic performance (with honors from high school and achieve BAScii admission scores in the top 40% of all admitted international students). The scholarships provide a 100,000 THB reduction in tuition fees for the first semester.

For remaining semesters, the 100,000THB reduction in tuition fee scholarship will be determined based on the students' academic performance and students' ranking in the program at the end of each previous semester. To retain the scholarship, students must maintain a GPAX of at least 3.25 each semester.

2. Recognition Performance Scholarships

Recognition Performance scholarships place emphasis on factors other than academic excellence. Students are assessed on the basis of their Recognition Performance or contribution to the society. The amount of this scholarship is up to a 100,000 THB reduction in tuition fees per semester.

Students who receive **Merit scholarships** are ineligible for a **Recognition Performance Scholarship** within the same semester.

3. Project Funding

BAScii students will have opportunities to work on private and public projects, for which funding is available. The number and the amount of grants allocated to each will be announced to BAScii students at the beginning of each semester.

Students who already receive one of the first two types of scholarships can also apply for this project funding.

* The BAScii program committee reserves the right to select the students for the scholarships and could change the scholarship policy at all times. However, the committee expects to maintain a consistent number of scholarships each year.
